

Camp Innabah, located in Spring City, is celebrating 94 years of camping ministry this summer. The mission at Innabah is to provide experiences that last a lifetime in an environment where campers and guests can make new friends, challenge themselves, and explore and grow in their faith.

Innabah's swimming pool is in need of saving. The concrete walls are falling in, the decking is a mess, and the underlying pipes and structure are falling apart. To fix what is there would be about \$80,000 and it would only be putting a bandaid on the pool for a few years.

That being said, we are looking at a full renovation complete with new decking, piping, and structure. The new pool will have a zero entry option, water features, and a sun ledge for our younger campers. This new design will be more accessible to all the campers and guests that come to Innabah.

**Help us Save Our Swimming Pool and reach our fundraising goal of \$375,000**
